Do you want to see yourself from a different perspective? Do you want to observe your current level from a tactical, technical, mental or physical point of view? Do you want to understand exactly what the coaches mean when they say, "Keep your left hand up longer?" or, "Bend your knees"? Do you need a college recruitment tape for coaches at the schools you hope to attend? Do you want to understand how to improve your strategy or determine what your best game style is? If so, then we may have the perfect choice for you:

1. Dartfish Technical Analysis :

Dartfish allows an athlete to see a thorough analysis of two strokes with highlighted techniques and movements using a blend of drawing and measurement tools, comparisons and commentary (visual and auditory) from an Evert coach.

2. Match Play Video:

For students who want to examine their tactical knowledge and decision making skills, as well as certain technical adjustments during match play. This type of video is filmed from an elevated position which takes into account a full view of the entire court.

3. College Recruitment Video:

For collegiate coaches who require an understanding of a potential student's tactical and technical ability. All strokes are filmed from various angles on-court. Match play is also included from an elevated position, which takes into account a full view of the entire court.

If you would be interested in being taped or would like further information, please contact David da Silva, ETA's Mental Conditioning Coach or inquire at the front desk.
